### DIRECTIONS FOR USE

DO NOT apply during abnormally hot, cold or slow drying conditions.  
DO NOT use a wetting agent as it may cause excessive run off.

| CROP                | DISEASE                                 | RATE                      | HOW TO APPLY                                                             |
|---------------------|-----------------------------------------|---------------------------|--------------------------------------------------------------------------|
| Roses,<br>all types | Black Spot,<br>Powdery Mildew &<br>Rust | Mix<br>15ml / 1L<br>Water | Apply at intervals of<br>7-10 days, for as lo<br>as diseases are active. |

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER  
CONTRARY TO THIS LABEL UNLESS AUTHORISED  
UNDER APPROPRIATE LEGISLATION.**

**APPLY PREPARED MIXTURE IMMEDIATELY**

### GENERAL INSTRUCTIONS

**MIXING:** Slowly add desired amount to water while stirring.

**METHOD OF APPLICATION:** Spray plants to the point of run-off to ensure thorough wetting and coverage.

**COMPATIBILITY:** May be combined with either Carbaryl or Pirimor, but mixing with both or other products may cause serious damage.

### FUNGICIDE RESISTANCE WARNING

**GROUP C FUNGICIDE**

Triforine is a member of the DMI group of fungicides. For fungicide resistance management triforine is a Group C fungicide. Some naturally occurring individual fungi resistant to triforine and other Group C fungicides may exist through normal genetic variability in any fungal population. The resistant individuals can eventually dominate the fungi population if these fungicides are used repeatedly. These resistant fungi will not be controlled by triforine and other Group C fungicides, thus resulting in a reduction in efficacy and possible yield loss. Since the occurrence of resistant fungi is difficult to detect Kendon Chemical & Mnfg Co Pty Ltd accepts no liability for any losses that may result from failure of triforine to control resistant fungi.

### PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

**CAUTION:** DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

### STORAGE AND DISPOSAL

Store in the closed original container, in a cool, well ventilated area out of direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. Break, crush or puncture and bury empty containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

### SAFETY DIRECTIONS

Avoid contact with eyes and skin. Do not inhale vapour or spray mist. When preparing spray wear elbow length PVC gloves and face shield. If product contacts with skin, immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each days use wash gloves, face shield and contaminated clothing.

### FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126.
