GENERAL INSTRUCTIONS

Insecticide Resistance Warning

GROUP 3A INSECTICIDE

For insecticide resistance management, KDpc Insecticidal Dust is a Group 3A insecticide.

Some naturally occurring insect biotypes resistant to KDpc Insecticidal Dust and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if KDpc Insecticidal Dust and other Group 3A insecticides are used repeatedly. The effectiveness of KDpc Insecticidal Dust on resistant individuals could be reduced.

Since the occurrence of resistant individuals is difficult to detect prior to use, KD Plant Care Pty Ltd accepts no liability for any losses that may result from the failure of KDpc Insecticidal Dust to control resistant insects.

KDpc Insecticidal Dust may be subject to resistance management strategies. For further information, contact your local supplier or KD Plant Care Pty Ltd representative.

STORAGE AND DISPOSAL

For plastic tubs: Keep out of reach of children. Store in the closed, original container in a well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Dispose of rinsings in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots.

Break crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Will irritate the eyes. Avoid contact with eyes. Do not inhale dust. When opening the container and using the product, wear rubber gloves and disposable dust mask. Wash hands after use. After each day's use, wash gloves and contaminated clothing.

FIRST AID INSTRUCTIONS

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet, which is available from the KD Plant Care Pty Ltd upon request.

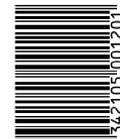

GHS STATEMENTS

Causes serious eye irritation. May cause an allergic skin reaction. May cause cancer by inhalation. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

DIRECTIONS FOR USE

SITUATION	PEST	RATE	CRITICAL COMMENTS
Domestic, Institutional & Industrial Premises - Food Preparation & Storage Areas & Living & Sleeping Areas	Cockroaches, Silverfish	10g/m ² applied with a powder duster	Blow powder into all cracks and crevices. Pay particular attention to warm, dark corners around cookers, fireplaces, radiators, stores, pipes, rubbish shoots and places where liquid sprays may not be used.
	Ants		Sprinkle the powder along runs, on and around nests. If ants are invading domestic premises, apply powder to the routs by which they enter. Repeat as necessary.
	Fleas		Dust powder over floor, brushing into carpet pile and blowing into areas where flea larvae develop.
	Bed Bugs		Apply powder to bed spreads, bedsprings, mattresses, floor coverings, upholstered furniture, cracks in walls, behind torn wallpaper, joints in woodwork and other cracks and crevices that may provide harbourages.
Roof Voids, Wall & Floor Voids, Crawl Spaces	Spiders, Cockroaches, Ants & Fleas	10g/m ² applied with a powder duster	Apply dust into all void areas. Ensure all surfaces are treated. Repeat as necessary if re-infestation occurs.
	Bird Mites (<i>Ornithonyssus</i> <i>spp.</i>)		Cover roof void area, paying particular attention to areas where there is evidence of bird nests. Remove nests and bird proof roof voids to prevent recurrence.
Skin & Hide Preparation	Hide Beetles (<i>Dermestes</i> <i>ater</i>)	10g/m ² applied with a powder duster	1. Place skins on drying racks and apply using a manual or motorised duster. 2. Dust exposed edges of dried baled skins.

SITUATION	PEST	RATE	CRITICAL COMMENTS
Mushroom Beds	Mushroom Sciarid Flies	10g/m ² applied with a powder duster	Dust mushroom beds no more frequently than twice a week to control adult and larval flies. Discontinue dusting when mushrooms reach the size of 10 cent piece.
Large Wasp Nests	European Wasps NOT QLD & SA	125g - 250g per nest	Using hand duster apply powder through entrance holes (125-250g per nest depending on size of nest and number of entrance holes). Treat at night whenever possible. Operators should wear clothing protective against the wasp, including long sleeved overalls buttoned at wrist and throat, gloves, hat and bee-veil.
Seed Potatoes	Potato Moth (<i>Pthorimaea operculella</i>)	600g per tonne OR 30g per 50kg bag of seed potatoes	Dust thoroughly immediately after harvest while filling storage containers. Treated seed potatoes are to be used only for sowing. Do not use for food or feed purposes. Treated seed potatoes should be stored apart from other potatoes and bags or containers should be clearly marked to indicate that the contents have been treated.
Trees and Stumps in Urban Areas	Subterranean Termites (<i>Coptotermes spp.</i>)	250g / Tree	Upon locating nest in tree or stump, drill 3 holes with a maximum diameter of 12mm. Apply dust directly to the nest using a carbon dioxide gas cylinder and a trigger gun. After treatment, holes should be coated carefully with a fungicide, eg. Copper Napthenate, and sealed with an appropriate caulking compound.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

**WITHHOLDING PERIOD:
MUSHROOMS - DO NOT HARVEST FOR 3 DAYS AFTER APPLICATION.**

GENERAL INSTRUCTIONS:

GROUP 3A INSECTICIDE

For insecticide resistance management, KDpc Insecticidal Dust is a Group 3A insecticide.

Some naturally-occurring insect biotypes resistant KDpc Insecticidal Dust and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if KDpc Insecticidal Dust or other Group 3A insecticides are used repeatedly.

The effectiveness of KDpc Insecticidal Dust on resistant individuals could be significantly reduced. Since the occurrence of resistant individuals is difficult to detect prior to use, KD Plant Care Pty Ltd accepts no liability for any losses that may result from the failure of KDpc Insecticidal Dust to control resistant insects.

KDpc Insecticidal Dust may be subject to specific resistant management strategies. For further information, contact your local supplier or KD Plant Care representative.

APPLICATION

KDpc Insecticidal Dust is ready for use; no further diluent should be added. Leave powder undisturbed for as long as possible after application.

PRECAUTIONS

Avoid contact with food, food utensils, or places where food is prepared or stored. **Before Use** remove or cover all exposed food stuffs. Cover all dishes and utensils, and places where food is prepared or stored. Do not apply dust directly to humans. Remove or cover fish tanks during treatment.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Dangerous to fish and other aquatic organisms. **DO NOT** contaminate streams, rivers or waterways with the chemical or used containers. Dangerous to bees and reptiles.

STORAGE AND DISPOSAL

For plastic tubs: Keep out of reach of children. Store in the closed, original container in a well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Dispose of rinsings in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Break, crush or puncture and bury empty containers in a local authority landfill.

If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Will irritate the eyes. Avoid contact with eyes. Do not inhale dust. When opening the container and using the product, wear rubber gloves and disposable dust mask. Wash hands after use. After each day's use, wash gloves and contaminated clothing.

FIRST AID INSTRUCTIONS

If poisoning occurs, contact a doctor or Poisons Information Centre (Tel: 13 11 26).
