PARTICULARLY SUITABLE FOR SEALING GRAFTS, TREATING LARGE TREE WOUNDS AND ROOT GRAFTING OF NURSERY TREES.

15kg

AN AUSTRALIAN OWNED COMPANY, EST. 1950
Kendon Chemical & Mfg Co Pty Ltd, 10 Abbott St, Fairfield VIC 3078 Ph 03 9497 2822

Grafting Mastix H gives a pliable wax seal impervious to water. **DO NOT** melt.

Grafting Mastic H can be readily worked around the grafts by the fingers.

DIRECTIONS FOR USE

The object of grafting is to improve particular tree or shrub by uniting a portion of it, the SCION, with the STOCK of the same or similar species of plant.

The principle of grafting consists of placing the cambium layers of the two cut surfaces so closely together they join and grow as one. This is achieved by excluding air and water.

For best results:

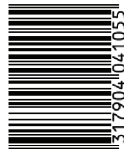

1. Warm (do not melt) Grafting Mastic H in a water bath until pliable. **Do Not** heat excessively as grafting mastic will become too thin and impair results.
2. Upon completion of the graft, cincture etc., thoroughly seal all cut edge of the graft or binding material with Grafting Mastic H while still warm, using a brush or working the product in the hands and applying to the graft to ensure complete exclusion of air and moisture.
3. Do not use excessive quantities of Grafting Mastic H, otherwise t results may be impaired.

Grafting can be performed at any time when the STOCK is in dormant state, but it is more successful immediately prior to the commencement of early spring growth.

The STOCK should be at a growth stage in advance of the SCION. This is normally achieved by cutting the scions some weeks before grafting and keeping in soil until required. When used, cut into 10-15cm lengths.

ALWAYS REPLACE LID AFTER USE.

Batch No.

CONDITIONS OF SALE: The product as supplied is of high grade and believed to be suitable for any purpose for which it is expressly supplied and must be used in accordance with the directions for use given on this label. No responsibility is accepted in respect of this product, save those non-excludable conditions implied by The Trade Practices Act or any applicable State Legislation.
